

The Indiana Telephone Privacy Law is EXACTLY what it says, PRIVACY. Please do not take this away. I missed a lot of important phone calls because it had gotten to the point I would just turn my phone off. It rang constantly, and I do NOT wish to return to this every day or night of my life. Like the old saying goes, "Why try to fix something that isn't broke". Thank you, and I hope the Law will remain in effect for the rest of my days.
